GEOMETRY DESCRIPTION

An abstract Bauhaus-style cityscape with a distinctive tower and varied façades is formed by Blocks, cylinders, a sphere and repeating arches

PARAMETERS

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

PARAMETERS

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

RELATIONSHIPS

block size
↔ window count
↔ stepped block count

PARAMETERS

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

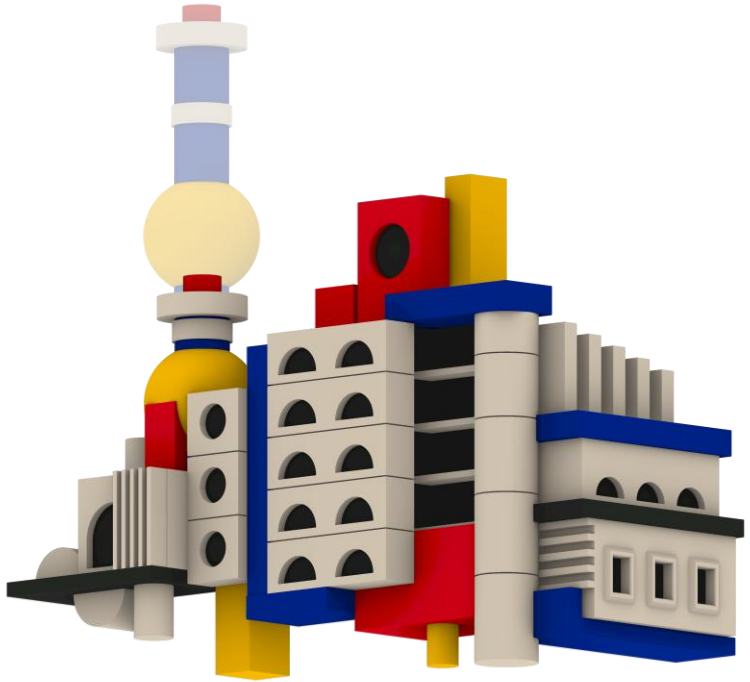

RELATIONSHIPS

cylinder diameter ↔ sphere diameter

Modular Metropolis

PARAMETERS

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

RELATIONSHIPS

tower height ↔ tower element spacing

PARAMETERS

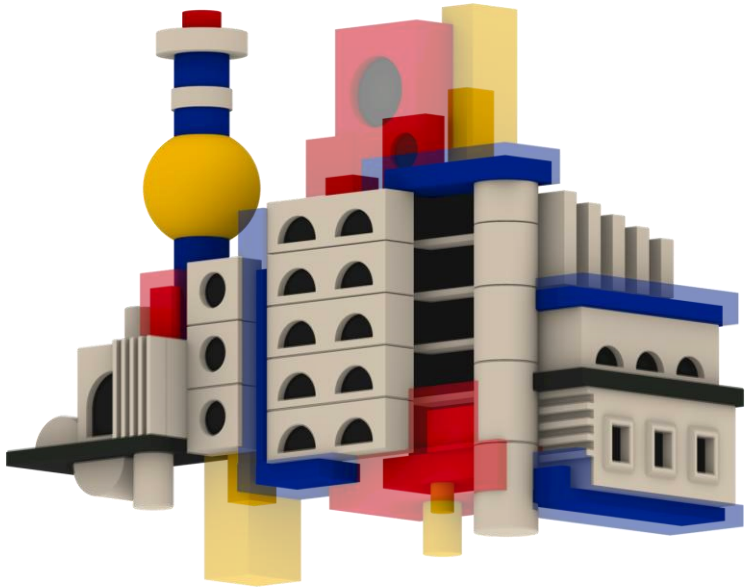

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

RELATIONSHIPS

story count
↔ cylinder height / spacing
↔ position of the top elements

PARAMETERS

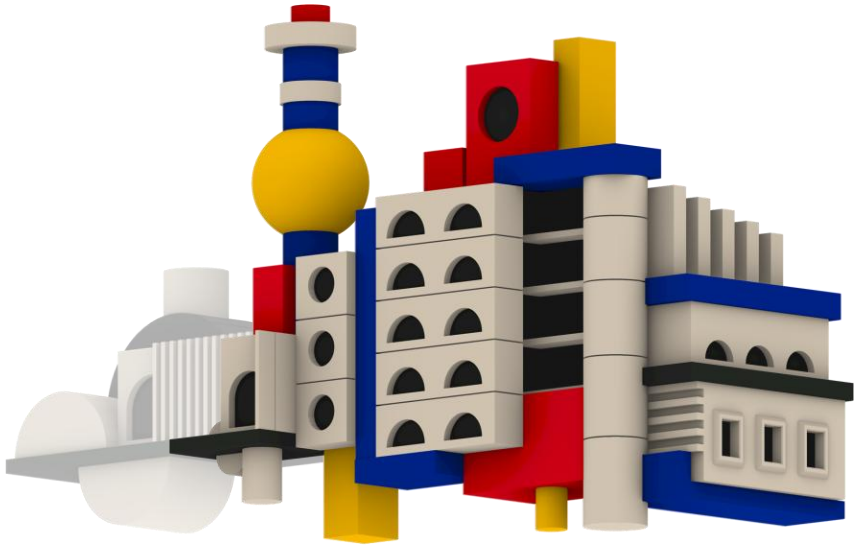

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

RELATIONSHIPS

scaling of blocks and cylinders
↔ size and position of the round window

Modular Metropolis

PARAMETERS

1 - right assembly extension
2 - tower element scale
3 - tower height
4 - middle assembly stories
5 - accent coloured geometry scale
6 - left assembly extension

RELATIONSHIPS

base plate size
↔ vertical slat count
↔ size and position of half-cylinders
